

CANADIAN INSTITUTE FOR THE BLIND LAUNCHES \$20,000 OCT. CAMPAIGN

Once again the Canadian Institute for the Blind launches its annual campaign to raise funds to carry on this very necessary worthwhile work of aiding the blind and in the work of helping the prevention of blindness.

In Lac la Biche, the Women's Institute will give its full support in sponsoring the CNIB campaign.

The success or failure of this \$20,000 campaign depends on you, the citizens.

Most of us know that The Canadian National Institute for the Blind is a nation-wide organization which devotes itself exclusively to the task of helping those who are blind as well as those who are threatened with blindness. It is doubtful, however, whether very many of us have a very intimate knowledge of how extensive its program is. It would seem opportune, therefore, for us to examine this program briefly so that we will know better what we are being asked to support.

In Northern Alberta the CNIB operates a splendid service centre which is located in Edmonton and which contains residence accommodation, rehabilitation and training space, recreation and workshop facilities as well as administrative offices. This centre is manned by a carefully selected and specially-trained staff, some of whom are themselves blind, who are specifically concerned with the welfare of the five hundred sightless persons throughout Northern Alberta and with others who are in danger of losing their eyesight.

The fact that these facilities exist, manned by such personnel, is in itself gratifying. Most of us will agree that the welfare resources of our community would be incomplete without them. We can think and say this with conviction when we wonder, were it not for the CNIB where we would turn for help and advice should blindness enter our own homes.

The activities carried on in, and stemming from, the CNIB centre are many and varied and they are available, without charge, to blind people of all ages, races, and creeds. Its welfare department establishes personal contact with them, becomes familiar with their needs and interprets the special services which have been developed. They can learn to read Braille and then make use of the free lending library containing a wide range of good books. They can learn handicrafts and acquire an interest and occupation. They can be taught to use a cane and to travel on the streets alone. They can be placed in suitable employment and can become self-supporting again.

Through recreation blind people can regain self-assurance and self-confidence. They can dance, bowl, play cards and other games. They can take responsibility in organizing their own activities and in finding solutions to their own problems. They can give as well as receive. They can be assets rather than liabilities to their communities.

In these and in many other ways the CNIB is helping the blind from day to day. It is a constructive work designed to help people to help themselves, stressing their ability rather than their disability.

We feel sure all will agree that it is a work worthy of our most careful and sympathetic consideration. In supporting it we are investing rather than giving, investing in a worthwhile community enterprise. We should be both proud and grateful that our society has produced such a service because it has been built and maintained by the Canadian public. We cannot allow such a healthy plant to wither. We must continue to nourish it and foster its growth.

SEA CADETS HEAD HOME

MONTREAL — (BUP) —

Five young sea cadets from Lac la Biche, Alberta, who spent the summer sailing the rivers and canals of Europe, will be aboard the "Empress of France" when she docks at Montreal Tuesday.

The five—accompanied by their leader, the Reverend Father J. E. McGrane, president of the Navy League of Alberta—will bring home with them the 32-foot motor launch they used on their 14,000 mile journey.

St. Catherine's Scene Of Wedding

LAC LA BICHE — A wedding of interest to Lac la Biche and district was that of Drucilla Ann Floyd and Theodore Mackriss, who were married recently in St. Catherine's Church, Lac la Biche.

The bride wore a brocaded white satin dress, her only jewellery being pearls, a gift of the groom. She carried a bouquet of sweetheart roses.

Attending the bride was Mrs. De Perin of Wandering River, and Miss Helen Blair of Lac la Biche.

Mr. Richards attended the groom.

The couple honeymooned at Banff and Edmonton.

Make Trip To Cherry Island

AVENIR — Mr. and Mrs. Clifton Plamondon and Mr. and Mrs. Joey Plamondon made a long distance trip across the Lac la Biche Lake to Cherry Island. Despite the fact the motor boat caught on a rock and had to be disentangled, the trip was made in seven hours.

Besides the original passengers on the trip, 200 pounds of cucumbers were brought back to Avenir.

Agricultural Society

LAC LA BICHE — Lac la Biche Board of Trade wish to organize an Agricultural Society. It is felt that this would be a very worthwhile enterprise.

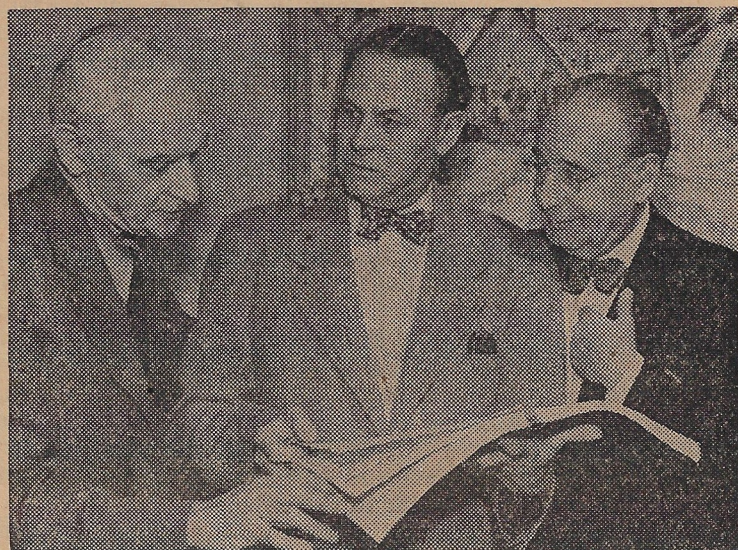

The reason for this belief is the fact that Gorin farmers took several prizes at the Athabasca Livestock Show last August.

If Gorin can raise such good stock, so can the other districts.

500 SIGHTLESS PEOPLE SERVED IN NORTHERN CENTRAL ALTA. BY CNIB

The Canadian National Institute for the Blind, established in 1918, is the only service organization for the blind in Canada. It is nation-wide in scope and has offices and service centres from coast to coast.

It reaches and serves blind people wherever they may be regardless of age, race, color or creed. Its aims are to improve the conditions of the blind and to prevent blindness. Through its Northern Alberta Service Centre and residence it serves 500 sightless people in Northern and Central Alberta. Blind people look to it for special services which are available from no other source. It, in turn, looks to the public for the funds necessary to maintain its work. Its annual campaign will take place during the month of October.

BIG THREE behind the Canadian work with which the CBC Opera Company will launch its fourth season Oct. 10 are, left to right, librettist John Coulter, conductor Geoffrey Waddington and composer Healey Wilan. Seven complete operas will be broadcast during the season.

TEACHERS OF TEN A.T.A. LOCALS WILL ATTEND CONVENTION

Teachers from ten A.T.A. Locals around Edmonton will be converging upon Edmonton this week for two joint conventions. On October 1 and 2, teachers from the locals of Athabasca, Lamont, Holden, Strawberry and Wetaskiwin will gather at the Masonic Temple in Edmonton for a two-day conference featuring four guest speakers.

Major attraction will be W. Virgil Smith, assistant superintendent of Seattle schools. Other guest speakers will be Morton L. Watts, provincial director of curriculum; H. S. Baker of the university faculty of education; and Eric C. Ansley, general secretary-treasurer of the Alberta Teachers' Association.

Later in the week, about 400 teachers are expected to attend Edmonton's second District convention. They will represent the locals of Barrhead, Smoky Lake, Sturgeon, Thorhild and Westlock.

Dr. Smith will once again be the main guest speaker. D. N. Sullivan, registrar of the department of education; Stanley Clarke of the faculty of Education, and Mr. Ansley will be the other guest speakers.

Nicholas A. Melnyk of Andrew is president of the October 1 and 2 convention and Miss Janet Martin of Athabasca is secretary. President and secretary respectively of the second convention scheduled for October 4 and 5 at the aMsonic Temple are A. J. Styra of Radway and Don Murray of Gibbons.

Meeting of Nurses At Avenir October 9

AVENIR — Weather permitting, Miss Sommerville, district nurse of Plamondon, will be at the Avenir Community Hall, Oct. 9, from 1 p.m. to 4 p.m.

Mike Sworin Shot Through Legs

GRASSLAND — Mike Sworin was shot through both legs, while travelling through the bush country north of Grassland Wednesday evening.

At the time of the accident Mr. Sworin was in the company of Nick Nypiuk. The two men were said to be hunting a wolf at the time of the shooting. The District Nurse reports that no bones were touched by the bullet. Nevertheless, the wounds are of a serious nature.

Owing to the distance from civilization, it was some time after the accident before medical attention was available. Miss Ries, District Nurse at Grassland, was called to the Bluda residence, where Mr. Sworin had been taken at 2:30 in the morning. After rendering first aid, the injured man was taken to Lac la Biche Hospital, where he was admitted at 4 a.m.

Mr. Sworin has since been removed to an Edmonton hospital. RCMP are investigating the accident.

PLAMONDON NEWS BRIEFS

Plamondon woke up Tuesday morning, Sept. 24, to find everything covered with a nice blanket of snow. It looks pretty bad for the farmers and their crops.

On Tuesday night at the residence of Mrs. Sommerville, the young girls of Plamondon enjoyed a scavenger hunt. Mary Stratton and Shirley Gagnon were the first to return with the complete items they were to find. They were rewarded with a lovely string of pearls each. The booby prize went to Anita Gauthier and Helen Sullivan. They received a beet with a handsome face. The girls sang songs and played games. Mrs. Sommerville served delicious pork and beans with rye bread and for desert they had donuts and hot cocoa. Everyone had a wonderful time!

The Y.C.F. held a meeting on Sunday afternoon, Sept. 23, at the priest's home. They are planning for the future skating rink in Plamondon.

LAC LA BICHE NEWS BRIEFS

Albrick Ringuette went to Brooks for a few days.

Mr. Blue from Edmonton is employed at the NAR station.

Those celebrating their birthdays on September 23 were: Mrs. Alex Proctor, Lucille Tatum, Mr. H. Swift and Joe Rezewski.

On Miss Lucille Tatum's birthday a crowd gathered and gave Miss Lucille a surprise party. The evening was spent playing games and dancing. A delicious lunch was served and Miss Lucille received many very nice gifts.

Mary Shawchuk and Roy Raines went to Edmonton to attend Mrs. Shawchuk's sister's funeral, Mrs. Lezewski of Hylo.

Mr. Terrien from Mile 137 was here for a few days.

Mrs. B. Dorrish, teacher for grade two, was on the sick list Friday.

Mr. Gene Lewis from Fort Saskatchewan visited friends for a short while.

The WI have organized their bowling leagues again with eight teams: Mrs. Hayduk, Connie Wilsonholme, Beulah Quast, Angeline Coutrey, Mary Hamar, Mrs. Gordichuk and Mrs. Ray K. Konal-wichuk.

Donald Blair graduated from grade twelve last term. He received very high marks in the supplementary exams he wrote in August with 100 per cent in Physics II. Donald is now employed in Mike Maccagno's office.

There has been three and nine tenths inches of snow with the mercury dropping to 13 above. Not many of the farmers have their threshing done or potatoes dug.

Lac la Biche Has New Sidewalk

LAC LA BICHE — Lac la Biche, like many other towns, is rapidly growing. In order to keep up the appearance of the town in accordance with the speed with which the town is growing, one thing that is needed is good sidewalks.

Lac la Biche has recently had 1000 feet of sidewalks laid.

This extends along the north side of Sask. Ave. to the corner opposite Lett's Store to the L & M Service. One block along Athabasca Ave. from Main St. west down opposite the village office.

The thousand feet were laid at the cost of \$11.00 a foot.

At the time of Confederation the largest British racial group in Canada was Irish.

EDITORIAL PAGE

You're Known By Your Friends

The British Labor party members are in the same quandary over unwanted friends as were the members of the Canadian C.C.F. party in the last election. The Communists have announced that in the coming election in Britain, on October 25, they will give their support in constituencies where they have no candidate to the Labor government candidate. These unwanted supporters are likely to prove a serious embarrassment to the smooth running of the campaign. The electors are bound to say: "Birds of a feather flock together!"

It will be of little use for Labor to protest that they don't want this support from the out-and-out reds. Like the C.C.F. in Canada, the Labor party in England stands to the left of the line of demarcation. They may protest that they are pink and not red, but the commonsense electors want something more radically different in colors than pink and red. Pink at anytime is only washed-out red, or faded red!

The desperate efforts of the Canadian pinks to convince the electorate that their pink had no shade of red in it, before the last election, when the Labor Progressives were broadcasting their intention of supporting the Socialists at the polls can easily be recalled.

But it is not likely that the combination of red shades from pink to purple, will fool anybody in Britain. Everybody knows a Communist at a glance, but it is not so easy to discover a Fellow Traveller.

By-Passing \$100,000

For two years, autoists and truckers between Edmonton and Redwater and other points north of Gibbons, besides the local residents, have been patiently awaiting the completion of a new bridge which crosses the river just one mile north of Gibbons. It will connect two stretches of well built-up highway grades and enable drivers to avoid the tortuous trails through the sand hills.

Well, the bridge is finished now. It has taken a long time—longer, we think, than it should have taken, and with luck it may be in use sometime this fall, if it hasn't been officially opened by the time this gets into print. It cost \$100,000 and should be good, and we believe it is good.

Comes the dawn of a new era for drivers in this area—but hold it! The government has decided not to use their new bridge for the paved road. Surveys have already been made to build a complete new highway just a few miles west of the present road and an entirely new bridge will be required. The recently finished \$100,000 bridge will be by-passed by all except local traffic.

We realize there is a great deal of rivalry between Bon Accord and Gibbons and each, naturally, wants the highway to run nearest their villages. But the highway route should have been definitely settled before any expensive bridge building was started.

Do It Well

One of England's most treasured antiques is a bit of old iron shaped something like a black saucepan without the handle. Edward the Black Prince wore it when he went into battle. When he died in 1376 the crested helm, together with other insignia was hung in Canterbury cathedral over his tomb.

It is believed the helm was fashioned by an armorer living in London, and time has proved that this ancient knight of the anvil and hammer did his work well.

The moral of this is that all work done well is much better than work that is skimped, whether in commerce, industry, trade or learning. There is need these days for the teaching of the old adage in the schools, "If a thing is worth doing at all, it is worth doing well."

Note and Comment

Private capitalism will work well when private capitalists work well.

We happen to be a little suspicious of these "do-it-yourself" books.

Homesteading Is Not Past

By T.B.W.

The day of pioneering in Canada is not altogether gone, despite the statements of news commentators to contrary. In northern Alberta there is an area of 3,000,000 square miles of good agricultural land, just 300 miles north of the city of Edmonton. This fertile stretch of land, considered to be non-agricultural territory not many years ago, includes the small settlements of Keg River, Paddle Prairie, and Fort Vermilion in all of which there are scattered farms today.

The results of experiments made at the Fort Vermilion sub-station of the department of agriculture are amazing to the agriculturists living in the southern regions of Alberta. In July, 1951, crops of wheat, barley and oats gave indication of producing average respective yields of 35, 40 and 75 bushels per acre this season. And the production of forage seed and fodder has become increasingly popular in the area.

Alfalfa is a firmly established crop for seed purposes, while a mixture of brome and alfalfa is a superior hay crop in this northern region.

During the summer months, the long duration of sunlight is a major factor contributing to the rapid rate of growth. Bush fruits are grown successfully in the home garden, and success with tree fruits has been had at the experimental station. Hardy varieties of apples, crabapples, plums, and cherry-plum hybrids produce good quality fruit recently.

As in other farming localities, the horse population is giving way to the mechanized methods of farming. Cattle and swine are numerous on the small farms and most of the coarse grain is consumed by the livestock, and marketed as animal products.

There is a bright future yet for the homesteader in Alberta's northern areas and, as in the past, many hundreds of pioneers have made their first start on the road to prosperity by homesteading on government land, so it will be in the future in this rich country.

Old Age Pensioners Anxious

Old age pensioners in Alberta are a bit disturbed today over the uncertainty of their position when the new dominion pension set-up comes into effect next January. There is no definite information yet as to what attitude the provincial government will take toward the continuation of payment of \$10 extra they have been receiving from the Alberta government. This extra amount given on a no means test basis is one of the sensible and humane acts of the government, in view of the high cost of living today. But nobody knows definitely if it is to be continued when the dominion takes over care of the 70 years and over pensioners.

The Alberta government remains unnecessarily silent on its plans in this matter, when a word from the premier would solve the fears and worries of these aged citizens. At present there are about 45,000 residents of Alberta who are over the 70 age and could qualify for the old age pension benefits, and about 38 percent of these are now in receipt of the present pension paid by both the dominion and the province. It is considered possible that an additional 28,000 of the older residents will apply for the \$40 a month pension.

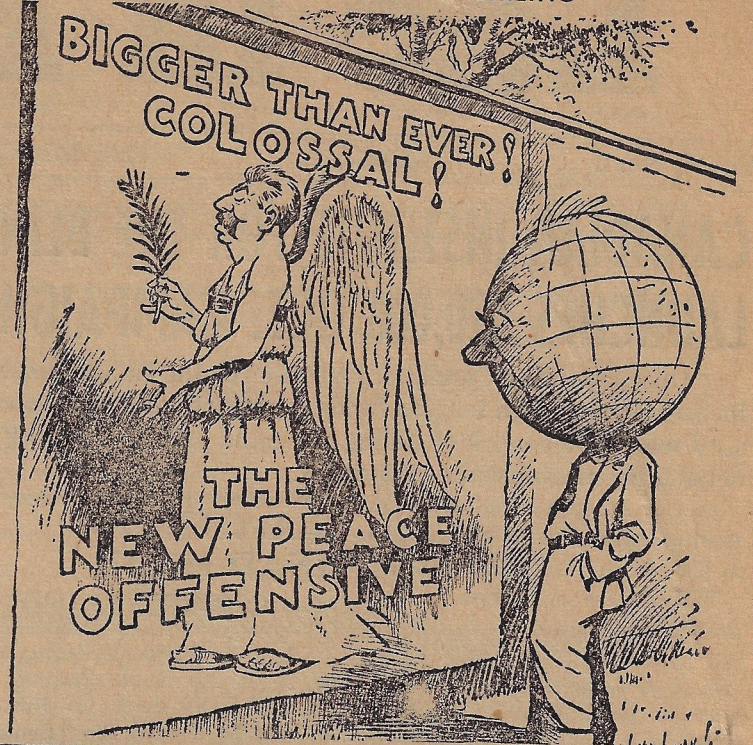

The provincial government so far has stated only that its policy with regard to old age pensions cannot be clarified until full details from the dominion are available, and then the legislature will consider its position early in the year. In the meantime, the government could, if it wished, make it clear that the old age pensioners of 70 or over will not suffer loss in their pension from dropping the extra \$10 monthly payment.

It is not necessary for the legislature to meet before a decision is made. The government can do as it has done on many occasions of less importance than this, pass orders in council covering the pensions. With the overwhelming majority it now enjoys, and the loyal support it is given by its members, the government would have no difficulty in gaining the needed legislative approval of its act.

The Bible Today:

"What doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God?" —Micah VI, 8.

Calls for Albertans To Stress Unity of Province

"It is time that we in Alberta become Albertans and not
Calgarians or Edmontonians." This is the theme of a talk
being given all over Alberta by Tommy Steele, assistant
director of publicity for the Department of Economic Affairs.

To illustrate his point Steele
takes the listener on an imaginary
helicopter trip of Alberta.

From the pottery and flour in-
dustry at Medicine Hat he quick-
ly flies on to Taber to point out
the year-old \$5,000,000 sugar fac-
tory there. Then on to Lethbridge,
the irrigation capital of Canada,"
which grows and cans a tremen-
dous percentage of Canada's peas.

From the coal mines at Leth-
bridge he sweeps on to the Crow's
Nest Pass coal mines, to the St.
Mary's Dam, a multi-million dollar
irrigation project which will sup-
ply water as far east as Medicine
Hat.

After he leaves the south,
Mr. Steele takes the listener
to Drumheller, also the centre
of a tremendous coal industry.

After Drumheller comes Cal-
gary, the Stampede City. During
the last five years Steele points
out, 94 plants with capital ex-
penditures of \$28,000,000 have
located in Calgary. These plants
employ over 1,800 persons and
have an annual payroll in excess of
\$4,500,000. In the same period
32 warehouses, costing over \$4-
000,000, have been built.

Red Deer, Mr. Steele points
out, is in the centre of a good
agriculture area, and he continued
its development is just beginning.

Wetaskiwin is also just at the
birth of its industrial development
according to Mr. Steele. He claims
that many secondary industries,
wanting to use Alberta gas, will
settle there because they will find
better locations and facilities
there in their particular cases.

From there he flies over the
Peace River and Lloydminster
areas, ending up at Edmonton.

Edmonton, he explains, had the
beginning of its phenomenal
growth with the war and the dis-
covery of oil at Leduc in 1947.
Since then three oil refineries
have been built on its outskirts
and a new chemical plant is now
under construction in the north-
ern city.

Other Alberta resources out-
lined by Mr. Steele are power and
salt. The oil sands are also fea-
tured in his talk.

CIVIL DEFENCE TO BE 'CD'

Abbreviations are the
vogue these days and the
Alberta civil defence organi-
zation wants to keep up with
the times. It was announced
today the official abbrevia-
tion for civil defence will be
CD.

Natural Gas To Flow Into Banff

CALGARY—Natural gas from
the Jumping Pound field west of
Calgary will be turned on next
Thursday at Banff.

The announcement was made
today by R. C. McPherson, gen-
eral manager of the Canadian
eWestern Natural Gas Company.

He said between 250 and 300
consumers had already been con-
nected to the distribution system
and the work of connecting the
remaining 700 consumers would
be done as quickly as possible.

The 61-mile transmission line
between the gas field and Banff
will carry about nine million cubic
feet of gas per day during the
winter for Banff consumers and

An eight-inch line from Jump-
ing Pound to Exshaw is already
in operation. The line from Ex-
shaw to Banff is six inches in
diameter.

Five Towns Fight Gas Rate Increase

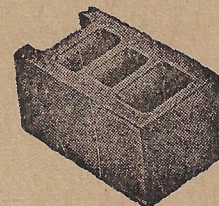

RED DEER — Representatives
of five towns in Central Alberta
will meet Wednesday in a con-
tinuation of efforts to avert a
proposed increase in natural gas
rates.

The meeting in Red Deer will
be attended by delegates from
Camrose, Wetaskiwin, Ponoka,
Lacombe and Red Deer.

PRINCIPAL WARNS AGAINST PERFORMANCES BY CHILDREN

(Taken from Hamilton News)

The practice of having children perform at home and school meetings was criticized by a Dundas school principal at the first meeting of the Hamilton Council of Home and School Associations, held in Ryerson Public School on Wednesday evening. Mr. W. K. Wylie, head of Dundas Public School, was speaking on What the Home and School Organization Means to Me, and thought that both children and teachers should be excluded from participating in the programs of regular meetings. Relatives would come to hear their children perform, but not to the regular meetings, and children suffered the next day. Teachers, too, were busy people and liked to attend meetings incognito.

MANY ATTEND

Nearly 140 parents, representing 40 Hamilton schools, were present to hear warm praise for the home and school organization and the part it could play in the life of the community. Outlining the work of the organization, the speaker said he thought some of the textbooks were a little too idealistic for practical purposes on the subject of a home and school organization's uses. If the parents were going to leave any sort of memorial in the school, he thought it should be a practical one, preferably an item which the school needed but could not afford, rather than a plaque on the wall. The home and school organization could act in the community as an auxiliary group. By virtue of its membership it could reach the public in matters of public health, such as cancer research. It could provide a link with the home and the school in the education of children of pre-school age.

EDUCATIVE FORCE

The principal thought the organization could act as an educative force by providing informative speakers. He placed most importance, however, on the study groups, especially those which studied the pre-school children. Early attitudes of a child's life were its greatest moulding factors, he said. "The longer I teach, the more surprised I am that we make what progress we do."

A home and school organization was essential in any school, the speaker concluded. "The organization is not something you put up with. It is something you cannot do without."

AVENIR NEWS BRIEFS

LAC LA BICHE — Miss Lar-raine St. Jean, daughter of Mr. and Mrs. John St. Jean, is very sick in hospital in Edmonton. Mrs. St. Jean is working in the city during her daughter's illness.

Little Judy Perner, daughter of Joe K. Perner has been very ill with the croup.

On Sept. 10, Rev. Fr. Ouellet of Venice sponsored a wonderful show in the Avenir Community Hall. It was greatly enjoyed by all.

Surveying is still being done. Those employed on the job are Mr. Roland, Daniel, Wibert and Gabriel Plamondon, Mr. Steed Gravelle and Williard Brooks.

Recovering from a recent illness, Mr. Hugh Pritchard, surveyor foreman, is back at work.

Mr. Theodule St. Jean is the mail man at Avenir.

Mr. and Mrs. Neda St. Jean's little girl became very ill and was rushed to the Lac la Biche Hospital.

Compliment To Women's Institute

LAC LA BICHE — The following article, taken from the Home & Country magazine, is a fine compliment to the work and planning of the members of the Women's Institute in Lac la Biche:

OUR LARGEST WI

The Lac la Biche Women's Institute was organized five years ago and has enjoyed a steady growth due to a very capable president—Mrs. T. Lett—and to the varied programs carried on.

With a membership of 87, the WI is a vital force for good in this community. A helping hand is always ready and in time of need each member can be depended upon to give cheerfully of her time and energy.

Tag Days are organized to assist the Cancer Society and the Canadian National Society for the Blind. Poppies are sold for the Legion and donations are given to the Crippled Children's Fund and the Society for the Relief of Incurables.

When a former member lost her home by fire each member was asked to donate one article for the home and on another occasion each member gave one dollar and thus a cheque for over \$70 was given the unfortunate family.

Funds are raised by card parties, bingo games and baking sales.

Fun and relaxation is found in the Bowling League which has nine teams of four members each. Games are played twice a week and cups are presented to the winners of the playoffs.

During the winter months classes are held in oil painting, shellcraft, crochet and tatting. A display of this work created much interest and classes are expected to be much larger next season.

Miss Andreassen, the District Home Economist, from Westlock, gave instruction in glove-making and in the making of purses. Classes were well attended.

There is a WI sponsored Girls' Club called the Lakeside Lassies, which was organized in 1949: last year one girl won an award of a week at Vermilion for completing a provincial project. This year one girl is attending the course in Olds.

A library of one thousand books provides entertainment for the reading public. A volunteer from the WI looks after the undertaking which is housed in the Town Office where the town secretary is generous in his aid. The juvenile section of the library is very busy, especially in the winter.

Thus the varied program indicated above provides interest and entertainment for all members of the community.

This report would not be complete without mention of the Hospital Committee, which visits all members who are ill and provides gifts of flowers and candy. At Christmas a well-filled bag is given each patient. Last Christmas 35 bags were given.

MRS. L. G. HALL.

TEACHERS' CONVENTION IN OCTOBER

Chester D. Babcock, director of curriculum for the Seattle School Board and prominent educational author, will be guest speaker at three conventions to be held by teachers in northeastern Alberta next week. Mr. Babcock will be one of several guests scheduled to attend conventions at Lac la Biche October 9 and 10; and at Bonnyville and Two Hills October 11 and 12.

Conventions are sponsored by the Alberta Teachers' Association and will be conducted by teachers of the locals concerned.

Teachers of the Lac la Biche ATA local will meet at Lac la Biche under chairmanship of Sister E. Montpellier. At Bonnyville, the ATA locals of St. Paul and Bonnyville will be repre-

sented. At Two Hills, Nick Myskiw, convention president, will be chairman. Frank Shymko of Myrnam is convention secretary.

At Lac la Biche, the department of education will be represented by H. C. Sweet, high school inspector. B. Y. Card will represent the faculty of education, and Eric C. Ansley, general secretary-treasurer of the ATA, will speak on behalf of the sponsoring body.

Mr. Card, Mr. Ansley and Mr. Babcock will also attend the Bonnyville and Two Hills convention. T. C. Byrne inspector of high schools, will represent the department of education.

All three conventions will take the form of general sessions for a portion of the time and group sessions for the remaining period.

A CHANCE FOR THE ALBERTA FARMER

The 1951 International Plowing Match, an annual farmers' event, will be held near Woodstock, Oxford County, Ontario, on Oct. 9, 10, 11 and 12.

It is a horse and tractor plowing match open to all winners of the Esso Champions Special classes at branch and country

matches, and plowmen from other provinces and countries may compete. Previous Trans-Atlantic winners will not be eligible.

Winners of the contest will be given an all-expenses-paid overseas trip and gold medals in both classes—horse and tractor plowmen.

During their trip to the United Kingdom, winners will be guests of Imperial Oil; they will take part in Old Country plowing matches, visit outstanding farms and livestock stations and see many historic sites and places of interest. They will be accompanied by a team manager appointed by the Ontario Plowmen's Association. The tour will take about a month and include a short stay in New York City and possibly some countries on the continent.

Second prize winners in the Trans-Atlantic will each receive a silver medal and \$150.00 in cash. Twelve other cash prizes will be awarded in each class.

W. R. Bullick is president of the Ontario Plowmen's Association, who are the sponsors.

The official opening of this match is Oct. 10, when the Hon. Thomas L. Kennedy, Ontario minister of agriculture, will be guest speaker at a special ceremony.

Prime Minister Louis St. Laurent will be guest speaker at a banquet in the Woodstock Arena on the twelfth when prizes will be awarded.

This is an excellent opportunity for Alberta farmers to show Ontario and other provinces that they are right on the bit when it comes to plowing.

GRASSLAND NEWS NOTES

Mrs. Nykolyn, mother of Mrs. Semenik, of Grassland, is seriously ill in the Lac la Biche hospital. She has been visited by her family at Lamont, her son and daughter-in-law, Mr. and Mrs. Pete Nykolyn of Waskatenau, besides her daughter, Mrs. Semenik of Grassland. Latest reports say her condition is greatly improved.

Mr. and Mrs. Pete Homeniuk are the proud parents of a nine pound baby girl.

Mrs. Mike Homeiuk is in hospital in Edmonton.

Mrs. Valerie Zak, now living in Edmonton, is visiting at Teschuk's.

SHOWING OF QUEEN MARY'S CARPET RAISES OVER \$100,000 FOR BRITAIN

TORONTO (BUP) — Queen Mary's carpet has realized \$104,350 for the British people.

The Imperial Order of the Daughters of the Empire said the admission sales to see the queen mother's needlepoint carpet topped the objective of \$100,000.

The carpet will hang in the National Gallery of Canada as the gift from the British crown to Canada.

She Wanted Big Family Now Is Mother to 2,200

NEW YORK (BUP) — Mrs. Rosalie Rubino always wanted to be the mother of a big family.

Now, at 36, she has her wish, but not the way she'd planned.

She calls 2,200 boys "her boys," even though she's never seen most of them.

Mrs. Rubino, wife of a lawyer, is the executive vice-president of Boys' Towns of Italy. Right now she's concerned with a fall drive to raise money for the more than 2,000 boys now being taken care of in the eight different Boys' Towns which have been set up in Italy since the end of World War II.

MOTHER TO ALL

"My husband says I'm mother to 2,200 boys," she said with a smile. "I hope I can go on working for them as long as I live. There will be a need for such programs for homeless boys all through my lifetime."

Mrs. Rubino heard about the forerunner to the Italian Boys' Town—a "shoeshine hotel" established in Rome in 1945 by Monsignor John Patrick Carroll-Abbing.

"He is called the Monsignor of the shoe shine boys," she explained.

"He is called the Monsignor of for the mobs of street boys who were homeless and just living by their wits on the city streets."

The pretty, dark-haired young woman was working in the office of American Relief for Italy. When the first Boys' Town was set up in 1946, Mrs. Rubino urged that the Italian relief office take it over as a major fund-raising project.

"Finally we did, so I feel as if I've been in on it from the very first," Mrs. Rubino said. Even the office on Broadway now is known as the national headquarters of Boys' Towns in Italy.

Since the president of the Boys' Towns is Monsignor Carroll-Abbing, Mrs. Rubino has complete charge of fund raising in this country, which contributes the major part of the funds to keep the youth communities operating.

"We get contributions from individuals all the time, besides our

Two New Zealanders Rush To Germany To Marry Divorcee

PUCHHEIM, Germany.—(BUP) —Two elderly New Zealanders pitted plane against ship today in a 9,000-mile race for the hand of a pretty, 39-year-old German divorcee whom neither has ever met.

Ship-bound F. E. Hargreaves, a 64-year-old goldminer, conceded his flying rival, businessman G. E. Engelbrecht, 52, would get to Germany before him. But he felt assured he was the blue-eyed brunette's first choice.

Basilia Schulte-Baeuminghaus, the object of both their affections, appeared to favor the goldminer. She said she planned to meet Hargreaves in London "soon" and return with him to New Zealand.

Engelbrecht welcomed competition. He said today before his take-off from Wellington by Pan American Airways plane:

"I'll get there first if I break my neck in the attempt. I am bubbling over with excitement."

High cost of railroading: It needs \$36,000,000 annually to replace worn-out locomotives and rolling stock on the C.P.R.

Gas Export Hearings Adjourned to October

CALGARY (BUP) —The Alberta Petroleum and natural Gas Conservation Board announced it would adjourn its current hearings on gas exports and re-opening of the hearings Oct. 22.

I. N. McKinnon, chairman of the Board, said firms applying for permission to export gas would be required at the October hearings to state the amount of natural gas they own or hold under contract, the price to be paid to the producer and supply other information on export proposals.

The current hearings are concerned with the extent of Alberta gas reserves, provincial requirements and deliverability of gas for provincial and export markets.

The board will also ask for information on the marketing areas to be served outside the province and a breakdown of the annual and peak day export requirements among consumers for the first and each fifth year of proposed export.

Companies appearing at the hearings seek permission to send Alberta natural gas to such markets as eastern Canada and Brit-

ish Columbia and the Pacific Northwest of the United States.

EXPECT CIGARETTE PRICE BOOST TO INCREASE SMUGGLING OF U.S. SMOKES

Royal Canadian Mounted Police and revenue officials said today the boost in the price of Canadian cigarettes may tend to increase smuggling of American cigarettes into Canada.

American cigarettes sell at about 18 cents a pack in the U.S. They retail in Canada for about 47 cents a package of 20 after import tax is added.

Major cigarette companies Friday announced a two-cent per pack boost for leading popular brands. The price of most cigarettes will now be 42 cents per pack.

Flight To Moon In 25-30 Years Predicted By British Scientist

LONDON.—(UP)—When man finally flies to the moon and to other planets, he probably will stop to refuel en route in space. He might even transfer from a "local" space ship to an "express" to complete the trip.

That's the latest thinking on how it will be done, Arthur C. Clarke, chairman of the British Interplanetary Society, said.

Clarke added that somebody should be making the trip in 25 or 30 years, or at any rate before the turn of the century. How soon depends how much importance the United States or Soviet Russia puts on getting to the moon first.

It hinges on how much prestige the West on one hand and Russia on the other think the first flight will bring and if getting there will give one side any military advantage.

WITHIN 10 YEARS

"The first step is building an artificial satellite or moon just outside the earth's atmosphere to use as a stopoff or as a launching platform for flights on to outer space," Clarke said.

He said that probably would be done within the next 10 years.

Then within the next century,

Clarke continued, will come flights several thousand miles out into space, flights around the moon, then flights to the moon and finally flights to other planets in the solar system starting with Mars and Venus the closest.

"The flights probably will be made in stages," Clarke said, pulling out some pictures of imaginary space "tankers" shaped like dumbbells. "Tanker ships might go up to the orbit of the artificial satellite to refuel the rocket after it makes the fuel-consuming journey through the atmosphere into space."

FORESEES THREE TYPES

Actually, he said, there probably will be three types of space ships—a ferry or "local" ship to take man up outside the atmosphere, a moon ship sent up to the artificial satellite or even built there to make the flights to the moon where another tanker might refuel it for the trip back, and deep space ships which would be built in space and stay there.

"The deep space ships would be relatively flimsy, low power ships because no great power would be needed to get up speed in space and no great strength would be needed," he said.

"They might be powered with atomic energy or even solar energy and would spend their time making trips from artificial satellites in the orbit of one planet to satellites in the orbit of another where the voyagers could transfer to ferry ships to land."

Son Denies Report Wealthy Mother Died Of Self-Starvation

DETROIT.—(BUP)—A 44-year-old socialite, formerly of Ottawa, who was reported to have died from the effects of over-dieting, died of chronic anemia, her son said today.

He said the death certificate, still to be filed, listed the cause of death of Mrs. Marian Peck Miles, as purpura anemia from which she has suffered for a number of years.

Mrs. Miles, an active club woman and striking blonde, died near Detroit Saturday at her fashionable Grosse Pointe farm home. Her son, Butler, 21, denied that he ever told anyone that she maintained too strict a diet.

Published reports said that Mrs. Miles was a rich heiress. She was supposed to have inherited millions from her father, Francis G. Pack of Ottawa.

He denied circulating stories to the press that she was one of the wealthiest women in the world. "All I said was that she was a woman of means."

He said his mother had been suffering from anemia for several years.

VOTING AGES

Minimum age to qualify for voting in provincial elections is 18 in Saskatchewan, 19 in Alberta, 21 in other provinces; before Newfoundland entered confederation, women of that province could not vote until they were 25.

IN HOLLYWOOD

Movie Stars Using New Kind of 'Falsies'

By VIRGINIA MACPHERSON

HOLLYWOOD—The skinny gals around town are going in for a new kind of "falsie." Now they're padding their hips.

That's what dance director Charles O'Curran says, anyway. And he says the gents started it all.

"Men like their girls plump nowadays," he explained. "Not fat—but just pleasingly rounded. Trouble is, the girls can't fill the bill."

O'Curran thinks they've been taking fashion magazines too seriously.

"They've been ogling all those matchstick mannequins," he growled, "and for a long time it was stylish for all girls to look like beanpoles."

"They've been disguising their shapes for years. Eating like birds and mashing away the curves with the rolling pin."

But all of a sudden, he says, the girls who look like pencils in the shower are blossoming forth with hourglass figures.

"They're padding their hips and thighs," he disclosed.

O'Curran says he stumbled across their secret when he was interviewing chorines and dancing girls for Paramount's 'Aaron Slick From Punkin' Creek'."

"We had the darndest time," he sighed. "We wanted girls whose thighs and derrieres were pleasantly plump—but not overly so. I'll bet we talked to 1,000 girls before we signed the 100 we needed."

"Some would walk into our office looking very tempting in their street clothes. When they changed to rehearsal outfits. And in their dancing costumes they looked like they'd lost 20 pounds in 20 seconds."

"I finally figured they'd been hiding their lack of form by padding their skirts to round out their hips. It's a new use for 'falsies'."

O'Curran says they must be using this padding in bathing suits and sports clothes, too. Because a lot of cuties he's seen on the beaches lately looked awful good.

"Hips are coming back, thank God!" he added. "This is a complete swing of the pendulum from the early 1900's. Four or five decades back, too many women were fat and sloppy. Corsets gave 'em that hourglass shape."

"Nowadays, girls have better figures than grandma had." And if you want a model, girls, O'Curran gives you Dinah Shore.

She's perfect," he beams. "Plump in the right places... no padding there. She's a woman in full bloom—and she looks it."

LABOR CONGRESS

WINNIPEG (BUP)—The Trades and Labor Congress will hold its next convention in Winnipeg on August 18, 1952.

The convention, which probably will be attended by some 600 delegates, will be held in the civic auditorium.

MICKEY ROONEY HAS MAN-SIZED TEMPER, ACTRESS-WIFE DECLARES

HOLLYWOOD (BUP) — Actress Martha Vickers testified in a divorce suit that her diminutive husband Mickey Rooney had a man-sized temper and spent most of his married life away from home.

The 25-year-old actress told a Hollywood judge "he had a very bad temper. He seemed to look for reasons all the time just to pick a fight—simply for an excuse to leave the house."

Thirty-year-old Rooney married the actress June 3, 1949, and their stormy marital life was marked by several separations.

Two Girls Ride Horses From Red Deer to Coast

VANCOUVER (BUP)—Resembling refugees from the Calgary Stampede two city gals with a penchant for horses have completed an 1,100-mile horseback ride from central Alberta to the Pacific coast.

Arriving back in Vancouver from a horseback ride that saw them lope all the way from Red Deer, Alta., to Vancouver, were two Victoria girls. Anne Wilson and Phyllis Elwell.

Upon arrival, both girls were garbed in traditional cowboy apparel, complete with Stetson hat and riding boots.

The girls rode from Red Deer south through Calgary to the old frontier and Royal Northwest Mounted Police town of Macleod and then headed west into British Columbia through the Crow's Nest Pass. Although the highway

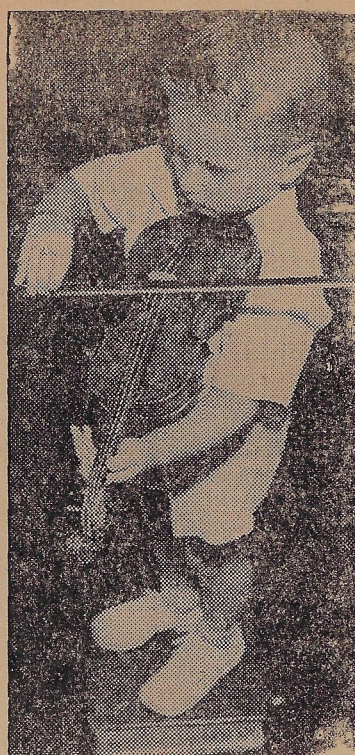

route would be only about 725 miles, they added another 400 by avoiding main highways.

Anne Wilson, an office cashier and Phyllis Elwell, a doctor's receptionist in Victoria, hit upon the idea of riding home by horseback because of the high cost of shipping horses by rail.

Alarmed at the high cost of renting horses in the B.C. capital, the two girls set out for Alberta to buy their own saddle ponies.

And seven weeks ago they headed for home, sleeping out wherever possible in true range-land fashion.

The girls had two main crit-

cisms of the adventure. One was the "lack of blacksmiths in British Columbia" and the other was "the fact that tourists kept taking pictures of us as though we were local characters."

\$35,000 CREDIT UNION THEFT

HUMBOLDT, Sask. (BUP) — The former secretary-treasurer of the St. Gregor, Saskatchewan Credit Union is on trial on charges including one of the theft of more than \$35,000 of the union's funds.

Edward Loehr is being tried at Humboldt by Justice H. F. Thomson, who was told yesterday that discrepancies totalling \$35,472 were revealed when a balance sheet was drawn up.

Field Auditor C. A. Snell of the Department of Co-ops testified he made the check last February and then learned of the discrepancies.

Loehr has pleaded not guilty to the theft charge and others of forgery and making false entries in the records of the credit union.

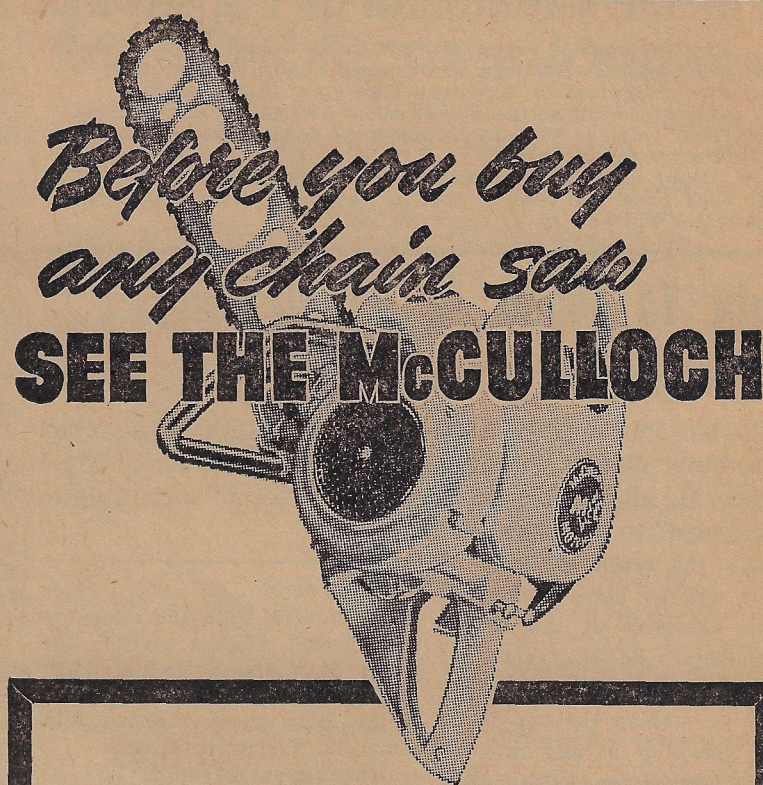

British Technicians Told Leave Iran

TEHRAN. — (BUP) — British oil technicians at Abadan have been given 10 days to sign contracts with the National Iranian Oil Company.

If they refuse to sign, an Iran-

ian spokesman said they face expulsion of overtures by the Iranian government for resuming the

The ultimatum followed the latest rejection by the British government down the giant oil fields.

RIISING COSTS HIT HOSPITAL AS NEW RATES UP 15 PCT.

The Royal Alexandra Hospital in Edmonton has announced a boost of from \$1.50 to \$2.00 in the rates of all public, semi-private and private wards, and the Alberta Blue Cross announced a boost of about 25 per cent in local rates.

The city-owned Royal Alex announced these new rates: public ward, \$7.00 instead of \$5.50 per patient day; semi-private, \$9.00 instead of \$7.50; and private, \$11.00 instead of \$9.00.

Increased rates followed a disclosure that the Royal Alex had an operating deficit for the first eight months of the year of \$131,-

296, or \$1,000 above the estimated deficit for the period.

It was also announced that tenders would be called soon for a new wing to the hospital, costing \$1,035,000.

Meanwhile, the Edmonton Blue Cross manager Joseph A. Monaghan announced Blue Cross hospitalization rates would be boosted from \$1.30 to \$1.50 a month for individuals and from \$2.70 to \$3.75 for families. Increases are effective Oct. 1.

City Mountie Who Broke Rustling Gang Retires In Saskatoon

SASKATOON.—(BUP)—A Royal Canadian Mounted Policeman who became the ace cattle-rustling gang buster in Alberta retired yesterday after 33 years service in the R.C.M.P. and the Alberta Provincial Police.

Staff Sergeant J. A. Cawsey, who has served with the R.C.M.P. at Saskatoon for the past six years, came to Western Canada from Halifax, Nova Scotia in 1907.

He served overseas with the 194th Edmonton Highlanders during World War I and then joined the Alberta Provincial Police at Lethbridge.

Cawsey is credited with smashing the dreaded Pincher Creek cattling rustling gang, and getting them convicted on 12 counts of cattle theft.

Oil Production Shows Decline In Alberta

Alberta crude oil production averaged 173,028 barrels per day during the week ending Sept. 24, a drop of more than 5,000 barrels daily from the previous week.

The decline was shown in the weekly report of the Alberta Petroleum and Natural Gas Conservation Board, released Saturday.

Production in the Leduc Woodbend field declined from 50,554 barrels to 48,933 barrels, while output at the Redwater field fell from 98,934 barrels to 94,137 barrels.

At Lloydminster, the decline was from 3,115 barrels to 2,317 barrels. Some other fields showed similar drops, but production at Acheson and Big Valley rose during the week.

KIKINO NEWS BRIEFS

Mrs. Helen G. Calliou, former postmistress at Kikino, is once more at the same post. Mrs. Calliou took over when Mr. Albert Bellerose recently retired.

Mr. and Mrs. Whitford and family, and Mr. Whitford's parents, all of McRae, were Sunday visitors at the Thompson home.

Many of the farmers of this district have migrated south to assist with the harvest. Those who are here are still haying.

Mr. A. Bouchie has purchased a new truck.

Farewell Party Held

SPRUCE VALLEY — On Saturday, Sept. 15, a surprise farewell party was held in the Prosvita Hall, four miles from here, for Marie and Sonia Duban. Marie took grade eleven and Sonia grade ten in the Grassland High School. They attended Grassland School via Spruce Valley van. A get-together dance was held and lunch was served.

After lunch, Elsie Koltowski, on behalf of the gathering, expressed regret at the departure of the girls. A collection of money was presented to them.

Marie, speaking for herself and Sonia, replied with a fitting thank you speech.

Set Fire So She Could Be Heroine

PROVIDENCE, Rhode Island.—(BUP)—An attractive blonde nurse's aide accused of setting a hospital fire so she could be a heroine has pleaded innocent to an arson charge in Providence, Rhode Island court.

Bail has been set at \$5,000 for Miss Katherine Leonard on condition she return voluntarily to a state mental hospital. She had been held without bail since her arrest last June, part of the time at the state hospital.

Police had said Miss Leonard admitted setting a fire last January at the Notre Dame hospital in Centre Falls. She was hailed as a "heroine" when she helped rescue several patients during the blaze.

Two Pilots Killed In Jet Plane Crash

CHATHAM, Ont. (BUP)—Two American pilots were killed and one woman seriously injured when two Sabre jet fighters collided and crashed on a farm near here.

Thirty-five-year-old Mrs. Fred Demeester is in hospital at Chatham. She was hit by flying debris when the two planes hurtled into a large barn a short distance from her farm home.

Identification of the two U.S. pilots, who were both thrown clear of the burning barn, is being withheld until next of kin are notified.

The two F-86 jet fighters were based at Selbridge, Mich. United States Air Force authorities are investigating the crash.

New Gospel Sent To Backward Lands

MONTREAL, Que.—(BUP)—Churches are not the only groups sponsoring missionaries to backward countries according to Glen A. Gilbert of International Civil Aviation Organization.

We said delegates also carry the "gospel" to foreign lands, a "gospel" of increasing prosperity through development of that country's potential air resources.

Gilbert said that ICAO "Missionaries who work in greasy coveralls with monkey wrenches in their back pockets" were sponsored in many countries such as Ethiopia, Iran and Indonesia by ICAO's technical assistance plans group.

SAYS EARTH GETS HOTTER

MOSCOW. — Soviet scientists have decided that the world is getting hotter all the time, and will remain hot for billions of years.

The Problems of Philosophy, a bi-monthly magazine, said Soviet academician Otto Yulievich Schmidt rejected the popular conception that the globe gradually is cooling off in a speech last April at a three-day conference on the origin of the polar system.

"GREAT EVENT"

After a heated debate, Schmidt's theory was accepted by the mathematicians and astronomers at the conference. They hailed it as "a great event in the history of Soviet science."

Schmidt, a famed Arctic ex-

Denies Split In Labor Movement

Winnipeg — (BUP) — President A. R. Mosher of the Canadian Congress of Labor denied there is any split in the congress executive.

Mosher stopped briefly in Winnipeg en route to his headquarters in Ottawa.

He said the fact that one person resigns does not indicate a split in the ranks of the organization.

He was referring to the resignation of Pat Conroy as secretary-treasurer of the C.C.L. at the wind-up of the Congress' convention in Vancouver, last week.

Mosher said he hopes Conroy will reconsider his decision and resume his work with the Congress "when he has had time to consider all factors involved."

plorer, said earth and other planets were formed from dust and gaseous matter surrounding the sun. The earth originally was cold, he said, but gradually warmed up due to the disintegration of radioactive elements.

He said the growth of warmth from disintegration of these elements is greater than the loss due to radiation. Therefore, he said, if the earth had been hot in the beginning, it would be even hotter now.

"The cooling begins only after such diminution of radioactive reserves that less heat will be generated than lost. In our estimate that will happen only after many billions of years," Schmidt said.

INTERNATIONAL HARVESTER FARM EQUIPMENT HEADQUARTERS

BING CROSBY, vice-president and prominent stockholder of the Pittsburgh Pirates, says "Get him!" when he sees Paul Douglas in the uniform of his favorite team. The latter plays the role of the manager of the Pirates in a new film, "Angels and the Pirates," in which most of the members of the Pirates play leading roles.

Unemployment Declines But 127,000 Still Jobless

OTTAWA (BUP)—Labor Minister Milton F. Gregg reported today that 127,100 Canadians were looking for jobs at the beginning of this month.

BEAR REJECTS FRIENDLY FACE

CALGARY. — (BUP)—One Calgary man will probably steer clear of feeding the bears in Banff National Park from now on.

The man, identified only as a Mr. Hunt, had his face gasped and his nose badly hurt by a she bear who took a swipe at him with her paw. The bear attacked Hunt while he was feeding one of her cubs.

LABOR PARTY PROMISES PEACE

SCARBOROUGH, Eng., Oct. 1 — (BUP) — Britain's Labor Party declared last night that a Conservative victory in the coming general elections might lead to war.

Prime Minister Clement Attlee's Laborites identified themselves as the 'peace' party in an election manifesto issued here on the eve of the party's annual convention.

With its release, the lines were clearly drawn in the battle for votes. Winston Churchill's Conservative party issued its platform last week for the Oct. 25 election.

On the surface, at least, the rift between left and right wings of the Labor party has been healed and Labor will present a "united front" in the campaign to defeat the favored Conservatives.

"Our first aim is to save the peace of the world," the party stated.

In a semi-monthly report of the labor picture across Canada, Gregg said that the number of unemployed had come down by 1,800 from Aug. 16.

Gregg said that the major developments on the national employment scene during the latter part of August and early September were "the continued lay-offs of workers from automobile assembly and parts plants in Windsor, the return of some logging workers to jobs in British Columbia following recent rains and the gathering of a labor force sufficient in size and quality to harvest the bumper Prairie grain crop."

The minister said that there was a reduction of 1,900 jobless in the Prairie region during the two weeks ending Aug. 30. A drop of 800 was recorded in the Pacific region, 400 in Quebec, 300 in the Maritimes and 200 in Newfoundland.

However, there was a rise of 1,800 unemployed in Ontario, 1,473 of them in Windsor alone.

"Employment conditions in Windsor are still in a state of flux," Gregg said. He reported that the total of jobless in Windsor on Aug. 30 was 4,705.

There were openings for over 15,000 loggers and bushmen in various parts of Canada, he said. Of the total, 7,500 were required in Quebec.

Basically regarded as a prairie province and agricultural, Manitoba has 400 miles of sea coast and three fifths of its 246,512 sq. miles is underlain with mineral-rich Precambrian rock.

Doctors Perfect Device To Study Human Body

STANFORD, Calif.—(UP)—A teaching doctor at Stanford University and a research engineer from Portland, Ore., have completed the first phase of a project that may be important to medical education.

The project is a complete atlas of human anatomy in three-dimensional kodachrome transparencies, each keyed to a matching diagram drawn to scale.

The work is being carried out by Dr. David L. Bassett, associate professor of anatomy in the Stanford medical school, and his colleague, William B. Gruber, inventor of a modern stereoscope known as the "View Master."

They have finished the painstaking task of photographing 238 related dissections of the human central nervous system.

PROJECT UNFINISHED

It has taken them two years to complete this section of the stereoscopic atlas and it will be published early in 1952. It will take them six to eight years and some 2,000 dissections and photographs before this project is finished.

A stereoscopic atlas of human anatomy is not a brand new idea. Bassett points out that the University of Edinburgh published

such an atlas before the turn of the century. There have also been other attempts to make use of stereoscopic views as a teaching method.

Fire Chief Has Eyebrows Singed

MEDICINE HAT, Alta.—(BUP)—Medicine Hat Fire Chief R. A. Allen took a woman and her two young children to safety up a burning basement stairway today as smoke filled the basement.

The Chief had his hair and eyebrows singed but Mrs. T. H. Cory and her children, Gordon, 4, and Sandra, 3, escaped unharmed.

Mrs. Cory was working on an upper floor when the fire broke out.

Miss Sweden Prefers Her Own Boy Friends

NEW YORK (BUP)—Miss Sweden of 1951 left New York and she said she could hardly wait to be back where men have "beautiful faces and figures" and women are womanly.

Anita Ekberg, 20, left aboard a Scandinavian Airlines plane after nearly stealing the show when she was guest of honor at the Miss America contest at Atlantic City.

She had a good time while she was here, she said, but American men made her yearn for her Swedish swains.

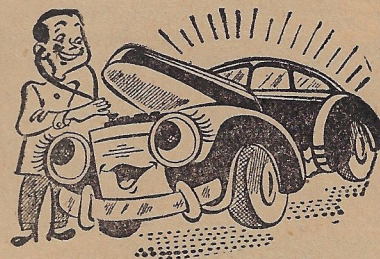

She said, "while I met many nice American men, I think Swedish men are much better looking. They are more gallant, more courteous, and have better manners on the whole. But most important, they make women feel feminine."

Dr. Grant Olson DENTIST

IT WAS a lucky day for Beverly Burrows, right, of London, Ont., when she sold a 25 cent ticket on a lottery to her father to repay a debt. When the lottery was drawn, her father won a car and she a car for selling the winning ticket. So Beverly, seen with her mother, has a choice of cars when she goes shopping.

Your Life Worth \$8,000 If Killed In Plane Crash

MONTREAL, Que.—(BUP)—You are only worth about \$8,291 if killed in a plane crash. Maybe not even that much.

Good News For Troops In North

CALGARY, Alta. — (BUP) — A scientific party that has arrived here after spending three months in the Far North had good news today for future Arctic soldiers. Such things as mosquitoes and other biting insects will not bother them.

The party consisted of government entomologist James Chillcott and Aylward Downe, a local science student.

Chillcott and Downs made their studies at Spence Bay, 300 miles north of the Arctic Circle on Boothia Peninsula. During their studies, which were made while living chiefly as do the Eskimos in the area, they found an unusually great amount of insect life. They said, however, that there were very few species in the North that were harmful to man.

Newspapers Condemn Attack On Press

HAVANA, Cuba — (BUP) — Newspapers of all political complexions here condemned police closure of a small opposition newspaper and yesterday's smashing of a Communist newspaper printing plant by a gang of raiders.

Police closed the tiny "Tiempo en Cuba" and held its publisher, representative Rolando Masferrer, briefly. Subsequently, Masferrer was released by Cuban intelligence agents. The Cuban Congress also has lashed out at his arrest.

Masferrer says he expects to straighten out all "legal difficulties" in time to get his paper out tomorrow.

Average hourly earnings in manufacturing in Canada rose by 10.8 per cent from April 1, 1950, to April 1, 1951.

That is according to the International Civil Aviation Organization which meets next week at Madrid.

Purpose of the Madrid meeting is to overhaul regulations set down 22 years ago in Warsaw. The Warsaw convention took good care of airlines in many ways. Chief among them was that no person could sue an airline for more than \$8,291 in the event of a relative's death in an air crash.

Regardless of the victim's income, the limit set was the same for everyone. Some persons feel it is time an adjustment was made.

Organizations arguing for a change say many travelling the airways today earn at least \$10,000 yearly. A man 35-years-old thus is potentially worth at least \$250,000 to his family should he work the normal 25 years more that most men do.

However, the man's family would collect not more than \$8,291 from the airline should he die in a plane crash.

The Warsaw convention provided dozens of legal methods whereby an airline was freed of all responsibility for a crash. One such loophole provided requires the company prove it merely carried out all normal, resignations before the flight took off. Another would let the airline escape by proving a crash was the fault of the plane's crew.

City Man Has Phone Installed In Car

There's one Edmontonian who won't be bothered with his phone ringing while he's in the bathtub. His phone's in his car.

T. W. Hall, 11135 72 Ave., has had a two-way radio telephone set installed in his private car. The set has a range of 30 miles and was installed by Alberta Government Telephones.

Largest users will probably be oil companies, doctors and truckers.

Snakes Won't Hurt You Unless You Scare Them

DAYTON, O.—(BUP)—Snakes do not milk cows, roll in hoops, hypnotize birds, or have poisonous breath.

These are myths about snakes that the Dayton Society of Herpetology is trying to dispel, along with fear for snakes. Through the centuries a mass of myth and superstition surrounding snakes has been developed. But fear of serpents is the most deplorable attitude of all the misconceptions people have of snakes, according to the Dayton herpetologists.

The fear of snakes, according to snake scientists, is not instinctive. A baby will fondle a garter snake just as readily as it will a cute puppy. But a frightened mother, rushing to rescue her child from the harmless garter snake, can cause a life-time fear of all snakes.

The herpetologist has conquered his fear of reptiles and handles them nonchalantly. But even the expert herpetologist never handles a poisonous snake needlessly.

Fear and snakes is a two-way proposition, the Dayton snake fanciers say. Just as most people fear snakes, the serpents themselves don't care to have anything to do with people. Snakes will do their best to avoid meeting people. When they strike, it is in self defence.

Poisonous snakes are the ones that must be recognized. The Day-

ton snake organization says there are but two poisonous varieties in Ohio—the rattlesnake and the copperhead. Neither is too common, but they are still found in damp places in the state.

REALLY SITTING ON POWDER KEG

VANCOUVER (BUP) — A Vancouver family has lived over two kegs of dynamite for 21 years.

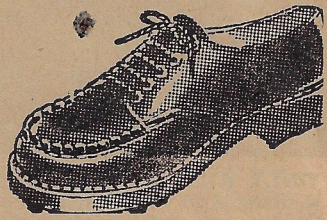

The discovery was made by Frank Fraser while making alterations to his basement.

The dynamite was promptly soaked with a solution of alcohol, water and lye in an effort to render it harmless.

New Iron Lung Devised To Help Polio Victims

JUAREZ, Mexico.—(UP)—A Juarez doctor is going to get an iron lung made as he thinks it should be made to allow polio victims to breathe properly.

Officials of the Republic Steel Co. of Massillon, Ohio, read of the doctor's ideas and offered to make an iron lung to his specifications.

The doctor, M. Garcigodoy, says iron lungs should "allow the patient to breathe as God intended."

"The iron lungs we use do not," he said. "They force a patient to breathe unnaturally, taking the same amount of time to exhale as inhale.

"That's not nature's way."

BUILT IN GARAGE

He explained that a person takes less time breathing in than breathing out.

Dr. Garcigodoy built that idea into a home made iron lung—his eighth—which he constructed in his garage workshop at his home in Juarez, just across the Rio Grande river from El Paso, Tex.

J. Portis, an El Paso engineer, heard of the doctor's work and drew up plans. The steel company sent its chief assistant metallurgist, Virgil Whitmer, to Juarez to check on the experiment.

The company will donate all the material and work for two iron lungs costing \$15,000 each. They will be equipped with the latest developments, far different from the ones Dr. Garcigodoy built from oil drums in his garage.

MADE FOR LISTENING

The stainless steel lungs will have a device to amplify heart beats and lung sounds so doctors can listen to them. Another device will record electric wave lengths from the brain, to inform doctors of the patient's mental and emotional reactions.

It will even have a geiger counter, to make use of another of Dr.

Garcigodoy's theories. A paralyzed person will be injected with radioactive materials, and the geiger counter will help show which nerve is dead, he said.

Dr. Garcigodoy hopes to exhibit the iron lungs during the American Medical Association convention in New York. They are scheduled for completion in November

Vitamins Added To School Schedule

CALGARY.—(BUP)—Vitamins have been added to the three "R's" in Calgary schools, according to an announcement by city medical health officer Dr. W. H. Hill.

He said that vitamin tablets are being distributed to school children at cost price. The tablets are free if parents are unable to pay for them.

cent in some regions of southern Saskatchewan.

Southern Manitoba, while it had received frost for the past two day, had not experienced any snow and harvesting was reported running fairly well to schedule.

West 'Arrogance' Makes Enemies Among Japanese

MONTREAL (BUP)—The Canadian president of a Japanese university says western "arrogance" may lead to friction between United States forces and the Japanese people.

The Reverend Dr. W. H. Outerbridge, president of the Kwansai Gakuni University in Kobe, says that westerners are "a pretty arrogant lot in dealing with Orientals."

"Now that the occupation is soon to be over, I'm afraid that there may be trouble," Outerbridge said. "Most of the GI's have been simply wonderful and helpful, but others have tried to bully the Japanese people."

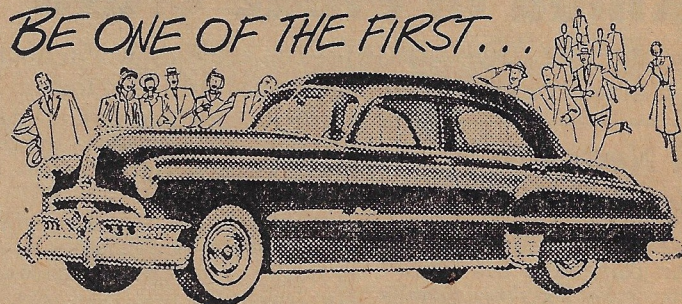

Outerbridge, in Montreal on a two-week speaking tour, said he was "a little worried" that friction may develop between Japanese who now are formally at peace

More Bank Robberies In Quebec Lately

MONTREAL, Que.—(BUP)—The Canadian Bankers Association reports Quebec has had more bank robberies in the last six years than any other seven provinces.

Arthur Rogers, secretary-treasurer of the Association, said there were 108 bank holdups in Quebec from 1944-50 compared with 122 in the rest of Canada.

THE OLD HOME TOWN

By STANLEY

Thrift Asked to Help Combat Living Costs

MONTREAL — (BUP) — Canadian housewives were asked for all-out thrift to make more materials and manpower available for defense production as well as keep prices down.

Man Charged With Hammer-Knife Murder

CORNWALL, Ont. — Police have charged 21-year-old Elias Meek with the slaying of a 29-year-old mother of four children near here.

Police said the suspected hammer-knife slayer of Mrs. Alice Algurie surrendered early Saturday after an all night search.

They said the farm woman, the wife of Meek's employer, was found Friday at her home.

Her two three-year-old children were standing in front of the house crying when the body was discovered.

Says Iran Going Toward Communism

TEHRAN, Iran (BUP)—Premier Mohammed Mossadegh's government is "stampeding towards communism," an opposition deputy charged in parliament today.

Deputy Jamal Emani made the accusation before the Majlis (lower house) as Mossadegh slammed the door on further approaches to Britain and called an extraordinary cabinet session to map the next moves in the oil controversy.

One of these moves was expected to be the expulsion by next week of British oil technicians.

Emani created a parliamentary Europe by declaring:

"We nationalized our oil in order to secure a higher income to eradicate communism from this country. But instead, not only did we get no income, but the country is stampeding towards communism."

Man Finds Dynamite Bomb In His Bed

DRUMHELLER, Alta.—(BUP)—An explosives expert from Edmonton was scheduled to arrive in Drumheller today to dismantle two home-made dynamite bombs.

The bombs were found in and near the home of Joseph Juhasz, of East Coulee, Alberta. One was in the bed and the other in a woodpile.

Alex Adorjan, of East Coulee, is being held on charges of placing the dynamite with intent to do bodily harm and of breaking and entering the home.

He appeared in court at Drumheller yesterday and was remanded in custody until Oct. without plea.

"Thrift is a special challenge today because renewed determination in its practice can help speed our rearmament program," Finance Minister Douglas Abbott told the annual convention of the National Council of Women.

Abbott announced that by the end of this year, Canada will be putting "close to 10 per cent" of the nation's total productive efforts into rearmament. Two years ago, two per cent of total output was for reference use, he said.

"If we can find ways to modify our own personal demands for goods and services at this time we help ease the pressures on our whole economic machine," he said.

"A little restraint here, a little more critical appraisal of value there, an ingenious device for getting along with less expenditure somewhere else, repeated thousands of times across the country, can have a striking effect."

Abbott said thrift could help rearmament in two ways:

1. By setting free materials and manpower for defence production.
2. By helping to restrain price rises which in themselves can complicate and reduce the working efficiency of productive facilities.

3 Alberta Men Due From Korea

VANCOUVER, B.C. — (BUP)—Major H. D. P. Tighe, of Victoria, B.C. second in command of the 2nd Battalion, PPCLI, heads a list of 25 Canadian fighting men being flown home from the Korean war theatre, the Army's B.C. command headquarters announced in Vancouver Saturday.

Arrival time in North America will be announced later, the Army said.

All the repatriated members of the Princess Pats are returning to Canada for paratroop training at Rivers, Man. They will be granted 30 days' leave from Vancouver.

Major Tighe commanded the famed Princess Pats of the 25th Infantry Brigade in the Korean fighting during the absence of Lieut.-Col. Jim Stone, DSO, of Edmonton. Stone had been granted compassionate leave due to the illness of a daughter in Edmonton.

The returnees included Pte. G. C. Johnson, Edmonton; Pte. C. R. Godin, Wetaskiwin, and Pte. L. A. Sales, Coleman, Alta.

Canada has the highest per capita metal production of any country in the world.

West Needing More Military Strength

MONTREAL (BUP)—External Affairs Minister Lester Pearson said Friday that the partnership of the North Atlantic pact nations must continue to base its strength on military strength for some time yet.

Speaking in Montreal, Pearson told a meeting of the National Council of Women that never before in history has there been such a combination of aggressive military power coupled with a universal idea serving that power.

He said he deplores those persons who see a Red under every bed and who would replace the

process of law by the Gestapo or the people's court with our own institutions.

He said we are not in such dire peril yet that we have to weaken our institutions with such methods.

Saccharin is derived from coal-tar.

Car Owners!

DODGE

HAS THE ANSWERS

to questions you frequently ask

Q Should I use a standard or premium gasoline in my car?

A That depends on the make of your present car. All new Dodge engines are designed to operate with maximum performance and top efficiency with ordinary gasoline.

Q How can I judge the amount of choking my car requires to start under varying weather conditions?

A Unfortunately, you cannot. But new Dodge cars are equipped with an Automatic Electric Choke which makes starting easier—particularly in cold weather, and avoids wasteful over-choking.

Q If my foot brake should fail, will my parking brake still operate?

A Yes, if you own a Dodge. The Dodge parking brake is completely independent of the foot brake, operating on a drum of its own fastened to the propeller shaft. When the propeller shaft is locked, the wheels cannot turn. In many cars the parking brake operates on the two rear drums of the foot brake.

Q In face of the high cost of body repairs, why don't all cars have detachable fenders?

A It would seem that some manufacturers have sacrificed the practical for styling. All Dodge fenders are bolted on and are easily removed to facilitate replacement or repair.

Q How can I stop my gas lines from clogging with dirt and water?

A With most cars there's no sure way. You might try draining and cleaning out your tank from time to time. In cold weather always keep your tank well filled as this reduces the amount of condensation. With a 1951 Dodge, of course, you cannot experience this annoying trouble. The new Dodge is equipped with an Oilite fuel filter located in the gas tank which keeps the entire fuel system free from dirt and water. It's self-cleaning, too, from the swishing action of the gas in the tank.

Q Why is rear seat riding in some cars so tiring?

A That's because a low, sloped-back rear seat places you in an uncomfortable position without support under and behind the knees. Dodge chair-high seats, both front and rear, give you proper knee and back support—let you ride long distances in comfort.

Q Is there any real difference in the various types of air cleaners?

A Yes, there are vast differences. For example, all Dodge cars use a heavy-duty oil-bath air cleaner. In "dust storm" tests, this type cleaner proved much more efficient than ordinary mesh-type filters even at the start. And, after 2,000 miles of driving it proved to be still 98% efficient, or nearly double that of other types of cleaners.

Q Should I buy a set of the special tires or tubes advertised as protection against blowout?

A Many motorists would not be without them. Dodge owners, however, have an exceptional safety factor in "Safety Rim" wheels. Protective ridges on these wheels hold the standard tire in place in case of tire failure, reduce the danger of loss of control and allow safe, straight stops.

Q Why do my windshield wipers slow down and sometimes stop working when I accelerate my engine—often when I need them most?

A That's a little technical but here's the answer in simplest terms. Your wiper is a vacuum type, operated from the vacuum in the intake manifold. This vacuum is highest when the engine is idling—lowest when the engine is under full load, such as when you call for fast acceleration, so your vacuum wipers slow down. With the new Dodge cars you do not experience this trouble as they are equipped with constant-speed electric windshield wipers.

Q How can I best protect my engine from the dirt and abrasives which collect in the oil?

A You should install an efficient oil filter, if your car is not so equipped. Not only are all Dodge Coronet and Regent models equipped with a highly efficient Micronic Oil Filter as standard equipment, but all Dodge models give you added protection with a Floating Oil Intake. This type of intake draws only the clean oil from just below the surface, preventing both surface foam and bottom sludge from entering the oil lines.

BUSINESSES

MORTGAGE LOANS

IF YOU contemplate selling your home or any other type of property, give us all the particulars as we can arrange for your buyer or a buyer or ours who has at least two-thirds cash. A loan for the balance through us providing all cash to you for your home and therefore simplifying a quick sale of your property. Box 68, Edmonton Sun. C S-24-TF-R

MALE Help and Business Opportunity. Master Plumber wanted. Excellent opportunity for a good plumber to get into business for himself and work in contracts in conjunction with established Sheet Metal and Heating Shop. Large contracts available for the right man in a district of the City of Edmonton where there is absolutely no opposition for a mile and a half. \$500 or \$600 investment required. Box 64 Edmonton Sun. CS-24-TF-R

ONE of the best Machine and Welding Shops in Alberta, including John Deere and other allied agencies available at once. Owner has made good money here, and is purchasing a business twice the size in another town for 3 times the money. You can secure this now at a sacrifice price to close out which is much below value for \$12,000, including stock and equipment being that the owner is this much short of his objective in purchasing the other property. This is a real sacrifice and includes the building 30x80, consisting of shop, stock and show rooms and a beautiful well landscaped home. Not far from city in one of the best mixed farming districts. Act at once on this. Box 73, 10815-82 Ave., Edmonton. CS-24-TF R

BUSINESS OPPORTUNITIES AND HOTELS WANTED

WANTED at once or after harvest a fair sized country hotel or business block. Please give full details first letter showing gross revenue and net revenue, total sales and purchases. Must definitely be self-sustaining property and in a good district and a money-maker to merit inspection and quick sale. Not interested in few cents on investment, must provide good interest on investment as well as salary for the purchaser. Reply in confidence to Box 67, Edmonton Sun. CS-24-O-6-R

BUSINESS OPPORTUNITIES

Grand opportunity to secure at minimum low price a Ladies' and Children's dress goods shop handling many exclusive lines. Very high dividends on the investment and business better day by day. Business started by present owner, 2 years ago, with a profit of \$4,000 to \$5,000 first year, last year, profit between \$9,000 and \$10,000, this year who knows, but step in now and obtain this business quickly as it is available to us to sell for 10 days for \$11,500 including stock. Building is rented, low overhead. Inquire now, this will provide you a salary and large dividends on the investment and maintain a home for you besides. Suitable for 2 girls or young couple. Box 69, Edmonton Sun. CS-28-0-1-3-R

PARTNER wanted, approximately \$4,000 to \$5,000 expansion capital required. Preferably investor interested in contracting, machine and welding shop work, more especially sheet metal installation. Applicant to share 1/4 interest in the business if silent partner with 1/4 of the profits deriving therefrom or if applicant will take active participation, he will benefit by receiving 1/2 interest in the business and deriving 1/2 of the profits therefrom. Some very large contracts in the offing and majority of the money needed for paying the usual 10% bond deposit required on large contracts. This is not interest on your money, but share on profits which is very substantial and should return 100% or more on the investment every year. Inquire at once to Box 72, 10815 - 82 Ave., Edmonton. CS-24-TF-R

FARMS FOR SALE

WE have for sale in Central and Northern Alberta one of the finest selections of the better type of improved choice farm lands, from home sites, small city acreages to improved grain and stock farms to large and small ranches—many with water and electricity, some even with their own private grain elevators, some fully equipped and completed with stock as going concerns. Let us know your requirements. We solicit bonafide inquiries from sincere purchasers. We also invite you to send us full particulars at once. If you have a farm or country business for sale, if it's saleable, we can sell it. 10045 LaFleche Bldg., Rm. 115, Alberta Business Locators. CS-24-0-2-24

SUBURBAN PROPERTY

FOR SALE—Approximately 3 acres with very nice home and with permanent income on the side which will provide several hundred dollars per month to the purchaser who is interested in poultry and eggs. 3 decker building for poultry already on site with approximately 1,000 birds and space and facilities for several thousand more. Reason selling, owner aged and not well and cannot handle. Splendid opportunity for young couple for a business of their own even though working at something else. This is a bargain at \$15,000, will accept small place or city home as part trade or give any wide awake young couple any terms with at least two-thirds cash. Box 100, Edmonton Sun. CS-24-tf-R

REVENUE PROPERTY WANTED

A revenue bearing piece of property, can be a business of almost any type, country hotel or can be a theatre, small apartment block, or large revenue bearing homes. Have a choice selection of 7 special High Grade Record producing farms, from 1/4 to 6 quarters, choice in every way, with facilities such as, all weather highways, Elevator conveniences and railroad. Abundance of water, Calgary Power, High Grade residence, barns and other buildings. Transportation all within 40 miles and closer to city. High Grade equipment if wanted, some with running water, pressure and cesspool and bathroom, either one of above farm owners will buy any revenue proven business, such as above outlined and trade their choice farm holdings and pay difference or assume mortgage. Contact us now and "Let's discuss it." Alberta Business Locators 115 LaFleche Bldg., 10045-102 St. CS-28-03-R

FARM WANTED

Wanted, choice farm close to city. The farm we select must be bordering on or close to good highway. Must have choice soil, level and have an exceptionally good producing record and be a good value on a nearly all cash deal. Bigger choice grain farm or very high grade mixed farm. Buyer wishes to raise and breed some good livestock and have ample water supply and on electricity if possible. Choice buildings and residence essential or if no buildings must be of such a choice location and self-sustaining and at a price that purchaser could afford to build his own buildings. Purchaser may buy with or without power machinery. Preferably fenced with shelter belts. Write us immediately, it is worth your while and time well spent. This is a good cash deal for somebody. Purchaser also has lovely city home, willing to throw in on purchase price. Box 70, Edmonton Sun. CS-28-TF-R.

ATTRACTIVE OFFERINGS
COMPLETE WITH CROP IF SOLD
ALL UNDISPUTED BARGAINS
WITHIN 10 DAYS

A few beautiful hand selected very choice High Grade Improved farms, most all with lovely homes and planted shelter belts and landscaped yards. On all-weather highways, which have proven high revenue crop producing records as well as high revenue producing Live Stock records, all selected have no less than \$12,000 in buildings thereon and some with buildings worth much more. All fenced and cross-fenced, many with running water, or abundance of water, otherwise, nearly all include this year's crop, total crop if harvested by purchaser, all Prolific Growth much better than average, even this year, when the season was 2 months later than usual, coupled with an exceptional long dry spell. None of these have even had hail. Two of these farms are partly on choice river bottom land. Many on Calgary Power, some with bathrooms and toilets on both floors, with exception of two. All are 20 minutes' to 60 minutes' drive to city, winter or summer to Edmonton Post Office and mostly all on daily bus service to city. All power equipment in first class condition if equipment wanted, as can be lumped together at addition as, but reduced price to purchaser of farm). Two stock farms are complete with all beef cattle and hundreds of hogs included. In many cases owners have other pending interests and some will accept other type of properties or smaller farm or acreage in trade and balance cash. Schools, stores, churches, elevators, no more than 6 miles and many within 1 1/4 miles to 2 1/2 miles. School buses serve most of them. Alberta Business Locators 115 LaFleche Bldg., 10045 10 St. CS-24-TF-R

ATTRACTIVE FARM, PRICED TO SELL, OWNER RETIRES, PART TRADE ON CITY HOME STRAIGHT SALE, CASH OR TERMS

Very nice quarter, close city, mostly black surface. Very convenient, facilities, complete with or without power equipment, nearly all broken, majority in crop, plus hay and pasture, plus summerfallow, black loam, level, 2 good wells, abundance water, lovely drinking water, electric lights, fenced and cross fenced. Close town and elevators. R. route, school and church close. Nice comfy brick home, several barns and several outbuildings. Taxes very easy. Never been crop failure. Crop to be agreed on if immediate possession. Owner retiring, might consider some other type of trade if revenue bearing or acreage. Farm is priced at \$3,000 below cost to owner, but owner not well and must move. First \$27,500 takes it complete with tractor and combine in good new fall condition and other power equipment. Can accept two-thirds cash, balance crop payment. Alberta Business Locators, 115 LaFleche Bldg., 10045 102 Street. CS-24-tf-R

Clothing Argument Traced Back To Biblical Times

CALGARY. — (BUP) — Arguments about clothing styles are commonplace nowadays, but a Bible on display in Calgary may be the original source of argument about who wore what.

The King James version of the Bible says that Adam and Eve wore fig leaves when they first donned clothing, but the Bible in the Calgary public library says they wore breeches.

The old Bible, printed in 1615, was loaned to the library by John L. Ward of Calgary, Alta. He said it had been in his family for many generations.

It is known as the "Breeches Bible," because of the manner in which it differs from the modern version.

Writer Attacked By Danish Consul

CALGARY. — (BUP) — The Danish vice-consul at Calgary has attacked a writer in his homeland for criticizing the Canadian legation for its dealings with prospective emigrants.

The writer, Kai Robert Svendsen, says in a book called "Real Facts About Canada," that the legation and the Danish Travel Bureau issue false information on life in Canada.

The legation's vice-consul, Victor Engwall, denies that his office spreads rosy rumors about Canada to dupe Danes into coming here. He says the book was written to create a controversy and sell.

Cigarette Famine To Be Over Soon

MONTREAL. — (BUP) — The president of the Imperial Tobacco Company said the cigarette famine in Canada will be over within a week or so.

C. Wood said in Montreal that huge quantities of smokes, stored for the past five weeks in the company's strikebound storehouses, will be on their way as soon as possible to dealers from one end of the country to the other.

The strike of the company's 3,700 employees in their four eastern Canada plants officially ended Monday.

At the end of 1949 non-resident capital investment in Canada reached the all-time high of \$7,966,000,000; of this investment, \$1,694 million was held in the United Kingdom and \$5,932 million in the United States.

The Lighter Side

A Wilt as Good as a Will

A passerby stopped to watch an old man in his garden weeding.

"Which weeds do you consider the easiest to kill?" he asked. "Widow's weeds," answered the old man. "You only have to say 'Wilt thou', and they wilt."

Coarse Work

House Party Hostess—"Very bad form, I call it, to ring me up during church hours."

Guest—"Probably she knows you don't go to church."

Hostess—"Very likely; but she might have had the decency to assume that I do."

Trouble

"My fiancée is terrible deaf, and this has got me in awful trouble."

"How's that?"

"Well, I had to yell so loudly when I proposed to her that the woman living in the flat above has sued me for breach of promise."

WESTERN WHEAT PRODUCERS NEED MORE MONEY, URGES J. E. BROWNLEE

Prompt release of the Canadian Wheat Board of proceeds of sale of last year's grain or alternatively increased initial prices on this year's grain, are urged in a statement made recently by J. E. Brownlee, K.C., president of the United Grain Growers Limited, after a meeting of the Board of Directors of that company. Mr. Brownlee's statement fol-

Farmers Petition Pool For Elevator

LAC LA BICHE — Farmers in the districts tributary to Lac la Biche are anxious that additional outlets and increased marketing facilities for the ever increasing grain crops be provided in Lac la Biche. At present many farmers have to haul grain as much as 25 extra miles on the round trip because there is only one elevator in town.

President of the Lac la Biche Board of Trade, H. C. McCaskill stated he has received information to the effect that one of the line companies plans definitely on building an elevator in town before the beginning of the 1952-53 crop year. At present a petition is being circulated among farmers of the Wandering River area to encourage the building of a Pool elevator in Lac la Biche.

The petition, which is being signed by scores of grain producers, reads as follows:

To: The Alberta Pool Elevators.
From: Farmers of Wandering River, Breynat, Amesbury, Plamondon, Avenir, Charon, Blue Jay, Gourin, Egg Lake, etc.

We, the undersigned farmers of the above districts, request the Alberta Pool Elevators that immediate action be taken towards the construction of a Pool Elevator at Lac la Biche.

Our reasons for the demand are as follows:

(1) Lac la Biche is our logical marketing centre, providing as it does a hospital, banking services, forestry and land offices, liquor vendors and railway centre.

(2) Present Elevator accommodation of one elevator is altogether inadequate to serve our needs.

(3) In marketing our grain we desire the benefit and stimulus of competitive buying which more than one elevator naturally gives.

(4) During the grain moving season in order to obtain the advantage of competitive buying and speedy deliveries, we are compelled to make the longer haul to Boyle.

(5) We that are Pool members feel that we have every right in making this demand as it is our desire to market our grain at a Pool Elevator.

(6) We that are not now Pool members could assure a Pool Elevator at Lac la Biche of our patronage and highly probable eventual membership.

FRAINS NEWS BRIEFS

Harry Budney was the first to start threshing this year, but due to the bad weather, everybody is having a "holiday."

A birthday party was had for Miss Victoria Kolack on Sept. 26 on her 17th birthday. She had many friends and received a large number of gifts.

There is only one teacher at Frains, Mrs. Dorosh, who is teaching grades 6-9. The lower grades still are at home.

Tony Sawchuk is a proud owner of a GMC 3-ton truck.

Walter Nahorney got a new GMC one-ton truck.

Nick Greschuk is the owner of a new threshing machine.

BIRTHS

Born to Mr. and Mrs. Donald Johnson of Lac la Biche, a daughter, on April 22. To Mr. and Mrs. Sam Assif of Lac la Biche, a son, Sept. 22. To Mr. and Mrs. Joseph Collins of Lac la Biche, a son, on Sept. 23.

"Many western farmers urgently need more cash than they can obtain immediately from marketing of this year's crop. Both initial payments and delivery quotas are low.

That need can be quickly met through further distribution by the Canadian Wheat Board on last year's grain deliveries. Tens of millions of dollars remain to be paid to farmers in that respect as soon as accounts for last year's crops can be closed. If further delay in that connection is inevitable, a substantial interim payment should be made at once. At least twenty cents per bushel on last year's wheat deliveries could be safely paid.

Alternatively, needed cash can be supplied by a substantial increase in initial payments on this year's deliveries on wheat, oats and barley. These are very low in relation to prices at which such grains are now selling. On wheat, for example, there is a difference between initial prices and class two export prices of nearly a dollar a bushel and of nearly fifty cents a bushel on wheat sold under the International Wheat Agreement. That is a margin of safety for the government much wider than is needed under present conditions.

United Grain Growers' Limited asks the government and the Canadian Wheat Board to act immediately to put more money into the hands of western wheat producers.

BRIEREVILLE NEWS BRIEFS

Mr. Richard Whitford is home from the hospital now. He is still unable to walk, as he is in a cast.

Grace Whitford is in the hospital with rheumatic fever.

Mr. and Mrs. Fred Roberts and sons from U.S.A. were visitors at the home of Leo Blais.

Herbert Thompson reports he saw wolves in his field recently.

Grain cutting is just about completed and threshing was to have started. Owing to rain there will be no threshing for a few days now.

Blueberries were very scarce in and around this district except in the stores at Lac la Biche so Mr. and Mrs. John A. Whitford, sons, daughters and families, along with Mr. and Mrs. Jim Tesolin and family, journeyed by truck and jeep, north of Normandeau, where they found blueberries galore.

Miss Hunter from Ontario, a cousin of the late G. S. Liddle, is visiting relatives in this district. On arriving in Lac la Biche, Miss Hunter heard that Mr. Liddle had passed away. She is visiting his widow, Mrs. Helen Liddle and his son, Robert and family.

A road is being constructed between Brierville and Normandeau.

Mr. and Mrs. A. W. Austin have left our district to live in Lac la Biche. They are wished the best of everything in their new surroundings.

Mrs. T. B. Lett of Lac la Biche was the organist at the recent baptismal services. Her efforts were greatly appreciated and the community wishes to say thank you.

The earliest form of telephone system was that of Emperor Shi Huang Ti. It consisted of brass tubing extending between guard stations along China's 1,500-mile Great Wall.

Hotel Under New Management

ATMORE — The Atmore Hotel is under the new ownership and management of Mr. Omer Poulin and Mr. Ronald Modian.

Mr. Poulin was born at De-verney, near St. Paul, Alta. He was raised and educated at Morinville. In 1928 he went with his parents to the Peace River district, where they lived at Donnelly.

Mr. Braddon, former owner of the hotel, is now living at Chipman, Alta.

In 1935 he started the Massey-Harris agency in Bellay, which he

ran until 1943 when he joined the Canadian Army.

Returning from service he went into business with the Massey-Harris and Chrysler Plymouth Co. in Whitelaw in 1946.

The Poulins have four boys, Victor 16; Roland, 14; Clair, 12, and Les, 2 years. The boys are very interested in sports.

Victor and Roland played on the Edmonton junior baseball team this year.

Ronald Modian, Mr. Poulin's associate, is a long-time resident of Atmore.

Both men feel that Atmore has a real future. Plans are progressing favorably for the construction

In Hospital During Week

LAC LA BICHE — In hospital during the week:

Mrs. Geo. Boucher, Lac la Biche; Mrs. Wm. Nykolyn, Sarraill; Mr. Paul Parranto, Mission; Mrs. Wilmot Switzer, Lac la Biche; Clara Larocque, Lac la Biche; Baby Mike Shott, Caslan; Phyllis St. Jean, Plamondon; Mr. Mike Sworin, Grassland; Mr. Michael Lazaruk, Boyle; Bobby McLeod, Lac la Biche.

of curling and skating rinks, and a new hall this year.
